

ALUMNO:

Alexis Yahir Alvarez León

MATERIA:

Sistemas Operativos

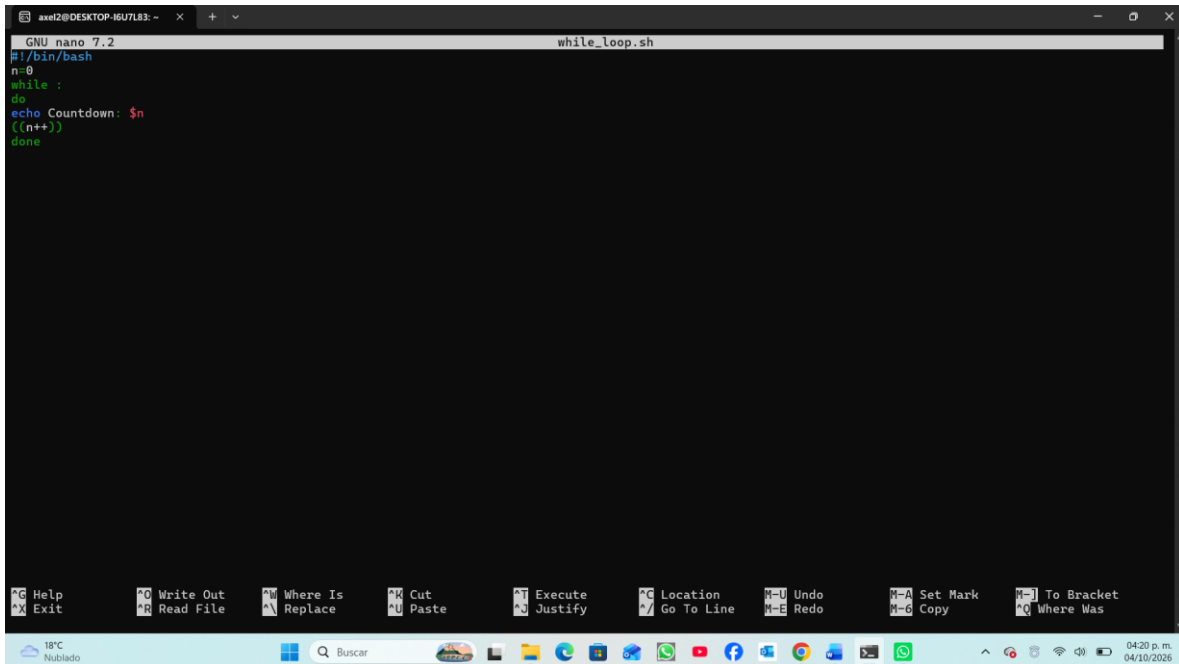

Bluces o sh del día 02/10/26

“ICO”

“COMPARTE LA FELICIDAD”

04/10/2026

En esta tarea la profa nos dejo terminar una actividad que estábamos viendo y nos dejo hacer 2 actividades mas las cuales son estas

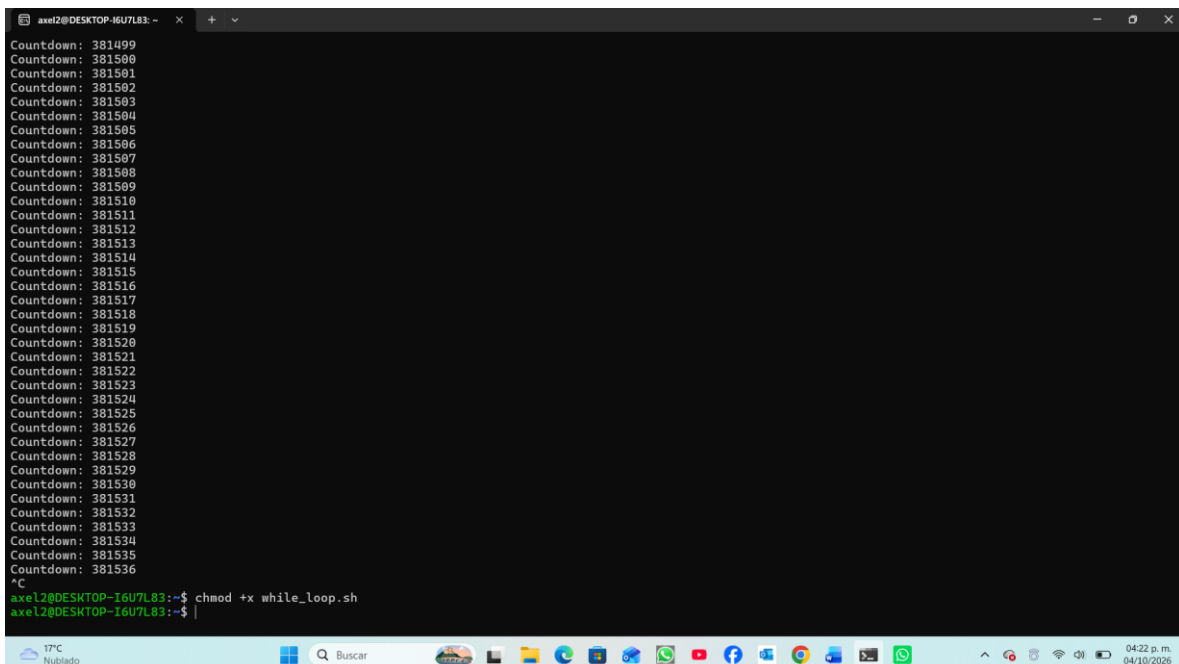

The screenshot shows a terminal window with the title 'axel2@DESKTOP-16U7L83: ~'. The user is in the nano text editor editing a file named 'while_loop.sh'. The script content is as follows:

```
GNU nano 7.2 while_loop.sh
#!/bin/bash
n=0
while :
do
echo Countdown: $n
((n++))
done
```

The terminal window includes a menu bar with options like Help, Exit, Write Out, Read File, Where Is, Replace, Cut, Paste, Execute, Justify, Location, Go To Line, Undo, Redo, Set Mark, Copy, To Bracket, and Where Was. The system tray at the bottom shows a temperature of 18°C, the word 'Nublado', and the date/time 04:20 p.m. 04/10/2026.

primero es crear este archivo nano while_loop.sh y pegar este contenido, la cual es la primera tarea que dejo y la que venia en la pagina-documento

The screenshot shows the same terminal window after the script has been executed. The output is a series of 'Countdown:' messages with incrementing numbers from 381499 to 381536. At the bottom, the user has entered the command 'chmod +x while_loop.sh' and the prompt has changed to '\$'.

```
Countdown: 381499
Countdown: 381500
Countdown: 381501
Countdown: 381502
Countdown: 381503
Countdown: 381504
Countdown: 381505
Countdown: 381506
Countdown: 381507
Countdown: 381508

Countdown: 381526
Countdown: 381527
Countdown: 381528
Countdown: 381529
Countdown: 381530
Countdown: 381531
Countdown: 381532
Countdown: 381533
Countdown: 381534
Countdown: 381535
Countdown: 381536
^C
axel2@DESKTOP-16U7L83:~$ chmod +x while_loop.sh
axel2@DESKTOP-16U7L83:~$
```

The system tray at the bottom now shows a temperature of 17°C and the date/time 04:22 p.m. 04/10/2026.

Después se le tiene que poner permisos a este archivo para que pueda funcionar ya que es sh y ya después ejecutarlo en la imagen se ve que ya lo había ejecutado quería

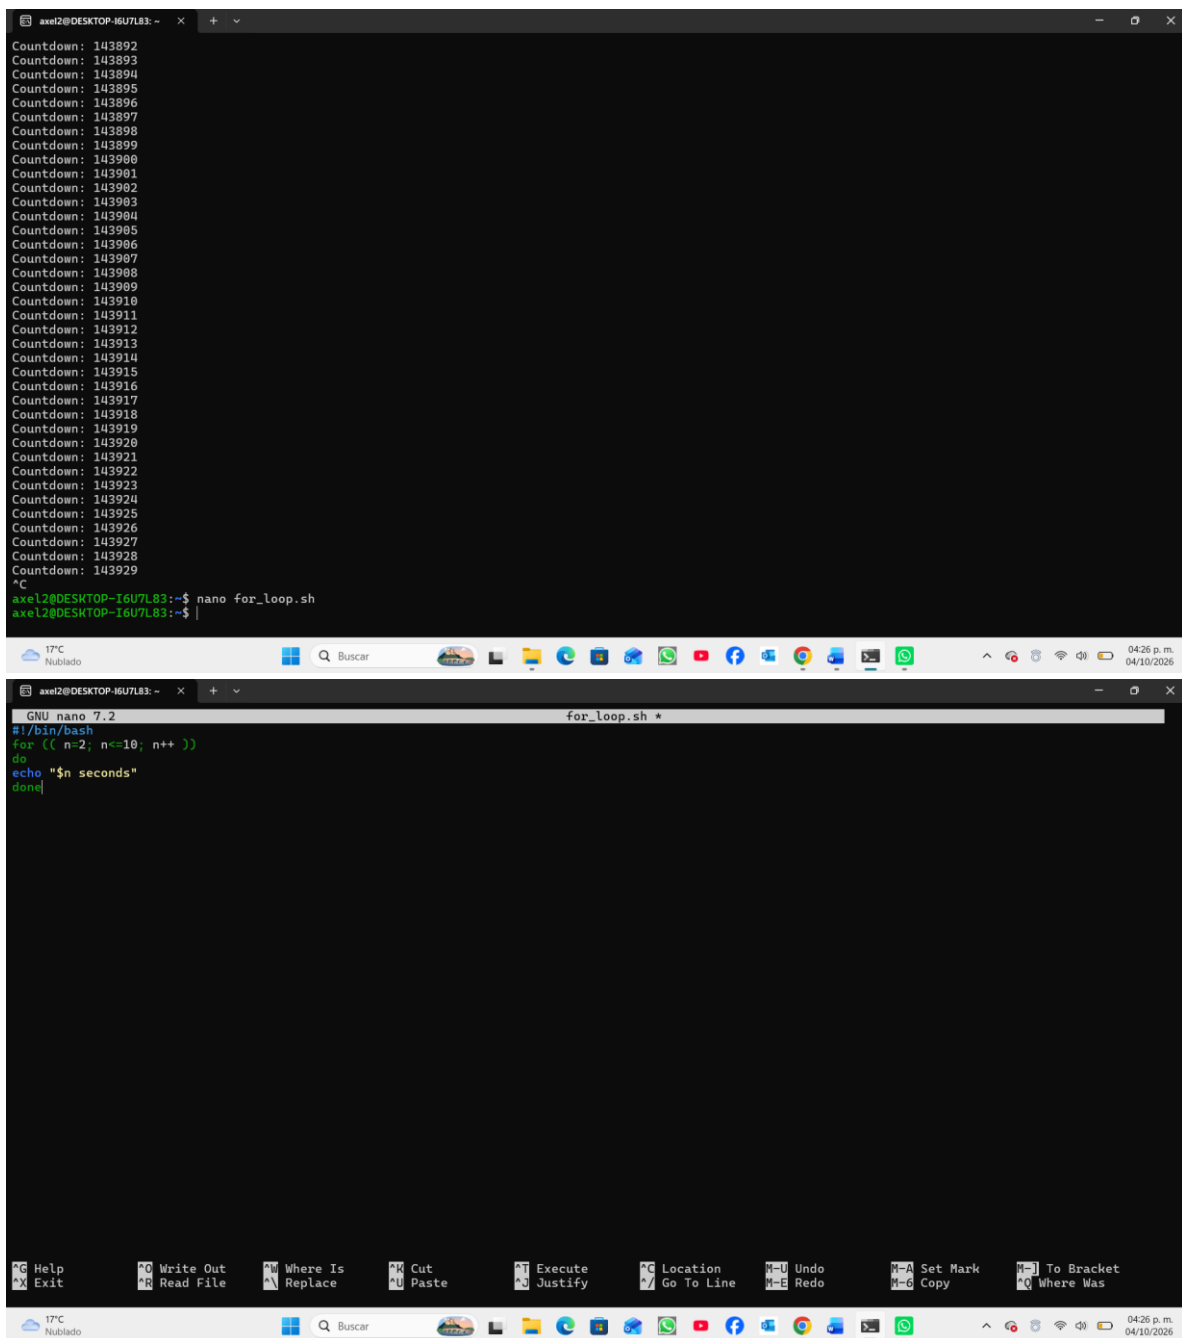

que ver que pasaba, antes también ya le había dado los permisos son `chmod +x while_loop.sh`

```

axel2@DESKTOP-I6U7L83:~$ |
```

y así se ve el resultado, ya que el código es de un bucle infinito ya que si no detenemos con `ctrl+C` se va a seguir siguiendo con mas números

Ahora vamos con el segundo código

The image consists of two screenshots of a terminal window. The top screenshot shows a continuous list of 'Countdown:' messages with values ranging from 143892 to 143929. Below the last message, the user has entered the command 'nano for_loop.sh' and the prompt has changed to the nano editor. The bottom screenshot shows the nano editor with the file 'for_loop.sh' open. The script content is as follows:

```
#!/bin/bash
for (( n=2; n<=10; n++ ))
do
echo "$n seconds"
done
```

The nano editor interface includes a title bar with 'GNU nano 7.2' and 'for_loop.sh *', and a bottom status bar with various keyboard shortcuts like 'H Help', 'W Write Out', 'R Read File', 'C Cut', 'P Paste', 'E Execute', 'L Location', 'G Go To Line', 'U Undo', 'R Redo', 'A Set Mark', 'C Copy', 'I To Bracket', and 'Q Where Was'.

Ahora el archivo se va a llamar nano for_loop.sh

Ahora le damos permisos al archivo y vamos a ejecutarlo

```

axel2@DESKTOP-I6U7L83:~$ chmod +x for_loop.sh  
axel2@DESKTOP-I6U7L83:~$ ./for_loop.sh  
2 seconds  
3 seconds  
4 seconds  
5 seconds  
6 seconds  
7 seconds  
8 seconds  
9 seconds  
10 seconds  
axel2@DESKTOP-I6U7L83:~$ |
```

En conclusión estos archivos sirven para ver como funciona el sh y bucles ya que pueden ser repetitivos o pueden cotrolarlos para que no sean infinitos
